The News.

Gen. Sherman, with his 15th army corps, has formed a junction with Gen. Thomas at Chattanooga.

It is rumored that Gen. Hooker has had another engagement with the enemy.

The rebels are increasing their force at Chattanooga by railroad from the south.

They evidently do not intend to close the campaign without an attempt to drive Thomas out of Chattanooga and Bernside from East Tennessee.

It is supposed that a great battle will soon be fought to decide who shall hold possession of Tennessee.

We trust our military leaders are preparing for this important event.

Four Unionists have been elected to the Confederate congress from North Carolina.

A military governor is to be appointed for Mississippi, with the view of reorganizing that state.

The French army in Mexico has again taken the field, and several encounters have already taken place with the troops of Juarez.

Comonfort commands the republic forces. A difficulty has occurred between Juarez and Doblado, his prime minister.

European dates are to the 5th instant. The law in the ram cases will shortly be settled.

Napoleon, in his speech at the opening of the French Chambers, made only passing allusions to American affairs.

He proposed a European conference to settle the Polish question. Japan has applied for French intervention in her difficulty with England.

The banks of England, France and Frankfurt have raised their rates of discount.

The Chicago Tribune has an account of a brilliant action at Pine Bluff, Arkansas, which occurred on the 23d inst., between Col. Clayton, commanding the 5th Kansas and 1st Indiana cavalry and one militia company, and 4000 rebels under Harmande, in which the latter was defeated after a four hours' fight.

Col. Clayton now holds the place.

The official soldier vote in fifty-one counties in Ohio, not including Hamilton, amounts to 24,100, of which Brough received 23,000 and Vallandigham 1,100.

Brough's majority is 21,900. The entire soldier vote allowed and counted will probably reach 42,000.

There is to be a meeting of the war democrats of the north-west at Chicago, on the 25th inst.

Twenty-four thousand rations and five thousand full suits of clothing, sent by government, and a large number of articles of convenience sent by the sanitary commission, have been daily received by our prisoners at Richmond, and their safe reception acknowledged by responsible parties.

Beds of peat have been discovered near St. Paul, which will be likely to revolutionize the fuel business. It can be sold for \$2.50 per cord.

GNOWING.—The Madison Patriot is evidently disappointed in an opportunity to find fault and create dissatisfaction with the draft in this district. It says:

"We publish to-day, by request, the resolutions passed by the Dane county delegation on the draft at Janesville. We can imagine no reason for such resolutions, except that it is so rare that a republican officer does his duty, that it was thought best to 'make a note of it.' The Provost Marshal has probably done his duty—nothing more—and we see no occasion for making a fuss about it."

If the Patriot cannot see the reason for the prompt and hearty acknowledgment of the fairness of the proceedings of the drafting officers, by the committee of the Madison common council and the Dane county board of supervisors, other people can. One of the best and most evident "reasons" is the loss of the opportunity to create dissatisfaction which causes the snarling of the Patriot.

SENATORS.—The Milwaukee Wisconsin says that substitutes are offering quite freely at \$250. They prefer this, they say, to getting \$302 or \$402, in installments.

REWARDS FOR BRINGING IN RECRUITS.—The public should clearly understand that the premiums of \$25 for a veteran recruit and \$15 for a recruit who is not a veteran, and \$30 for deserters, will be paid to any person. The premiums are not paid to a recruit offering himself.

RECEIPTS OF GRAIN AT MILWAUKEE.—The receipts thus far from the crop of 1863 compare with the crop of 1862 for the corresponding period as follows:

1863, bushels.....6,177,162  
1862, ".....5,638,708

Increase.....538,454

This, adding the flour, is an increase of 10 per cent. over the crop of 1862.

THE NAMES.—The name of the 35th Wisconsin soldier killed at Camp Washburn on Friday night, was Fisher, and the person who struck him so that it resulted in his death, is named Clow, of the 30th Wisconsin. The matter is now being investigated by the military authorities.

WISCONSIN.

City of Janesville vs. Rock County.

MEANS. Editors:—The communication under date of the 16th inst., which appears, as entitled above, signed "Justice," requires a statement of the facts as they appear from the record between the city and Rock county.

The proposition made by the committee to the county board is as follows:

To the Honorable the Commissioners for Rock County:

GENTLEMEN: As chairman of the committee appointed by the Common Council for the City of Janesville, I am directed to submit to you for your consideration, the following proposition as a basis for settlement between the county and the city of Janesville, in relation to city and county taxes, returned to said county by said city, from the year A. D. 1854 to 1857, inclusive.

1st. The city to have credit for all the said taxes raised for city purposes.

2d. The city to have credit for such taxes as have heretofore been charged back to said city illegally, which have been paid by the city.

3d. The city to be credited for all money actually paid and disbursed in engraving, and drafting the re-assessed law, and litigation the same.

4th. All taxes where property has been assessed which was not liable to assessment, the tax to be cancelled, and not taken into the account.

On the part of the County:

1st. The county to have credit for all taxes due, and levied for state, county and school purposes, except what school money was properly due to said city.

2d. The county to be credited for all payments heretofore legally made upon any city indebtedness.

Any matter in dispute as to any legal question shall be submitted to the District Attorney for Rock county, for his decision, said submission to be made in writing, with said attorney's decision, and in case either party is dissatisfied, they shall have the right to submit the same points in dispute to Hon. L. H. Dixon, chief justice of the supreme court, for his decision thereon, and said Dixon's decision shall be binding and final.

Lastly, all expenses growing out of this settlement, and arbitration, to be borne equally by the county and city; and in case this proposition is not accepted by the county board, the common council demand a statement of the account in items of the amount claimed to be due the county by the city, to be presented to the council at the earliest practicable moment.

"Justice" complains of this proposition that it is non-committal, shrewd, lawfully and unfair; that there is a misunderstanding between the city and the county, in relation to the taxes returned to the county, during the years 1854 to 1857 inclusive, I cannot deny.

I trust no ill-feelings will exist between the city and the county; that all questions in dispute can be satisfactorily and equitably settled. Some of the facts are as follows: During the aforesaid years, it appears from examination made by the city and county officers, that the total amount of taxes unpaid which were returned to the county were \$15,123, exclusive of street taxes. On the 7th of June, 1858, the county settled with the city treasurer and gave the city a due bill for \$18,000. There was indorsed on the said due bill, in street certificates returned to the city \$9,384.01; city orders \$2,960.90. Total \$11,744.91; leaving a balance due the city \$6,255.49.

The total amount uncollected by the county is \$15,123. After allowing all indorsements as aforesaid, the city would owe the county on settlement the difference, which would be due the county, \$8,867.51; had the settlement taken place at the date of the due bill.

The county has charged back to the city \$32,000; this includes street certificates to a large amount.

The county board has paid a large amount of money out of the county treasury in payment of those street taxes. The city character in relation to those street taxes provides as follows, section 10, chapter 7, act of 1853:

"After the completion and performance of any contract entered into by any street commissioner for work chargeable to lots or lands by virtue of this act, they shall give such contractor or contractors a certificate, under their hands, stating therein the amount of work done by such contractor, the nature thereof, and the description of the lot or parcel of land upon which the same is chargeable, which said certificate may be transferred by endorsement thereon, and if the amount thereof shall not be paid before the time of making out the annual assessment roll, the same shall be assessed upon the said lots or parcels of land respectively, and collected for the use and benefit of the holder of such certificate, as other taxes on real estate are collected, and the work required and if the notice to do the work required, no informality or error in heretofore proceedings shall vitiate such assessment; Provided, That in no event, where work is ordered at the expense of any lot, or parcel of land, shall either the city or any ward be held responsible for the payment thereof."

By the provisions of this act the county board had the right to collect the said street certificates and settle with the holder or owner thereof. The city has no control over the same. The act of the county board in paying money out of the county treasury upon said unpaid certificates was unwarranted; also, their act in attempting to re-assess the unpaid street tax upon this city.

Chapter 48, sec. 9, of the act re-assessing the state, county and city taxes referred to, reads as follows:

"The said city treasurer shall receive any certificate heretofore issued by the treasurer of Rock county for the sale of any such property for non-payment of said state, county and city taxes, for the years 1854, 1855, 1856 and 1857, in payment, as the case may be, of the taxes assessed and levied upon such property, pursuant to this act, for the year, on account of such tax, and shall allow to the holder thereof the amount for which said property was sold, as specified in said certificate of sale."

The city treasurer did receive in payment for the taxes aforesaid a large amount of certificates under and by virtue of this act, and consequently the county has no authority to charge back the total amount of taxes as aforesaid to the city, the county having heretofore transferred the certificates and received the money—and the same having been paid by virtue of the act aforesaid to the holder of said certificates, the tax, by virtue of the law, is cancelled.

Had there been no illegal taxes, and the account could have been left, as settled by

the city and county at the date of the due bill, no difficulty could have occurred.

The whole tax from '54 to '57, having been declared illegal, it becomes necessary to go behind the settlement, inasmuch as a portion of the taxes had been collected by the county before the re-assessment, and a large amount having been paid to the holders of said certificates, by the city treasurer.

Any holder of any certificate sold which was purchased of the county, can at any time demand the money of the city treasurer, for money collected on account of said tax.

A large amount of these certificates sold by the county for the unpaid taxes, for the years aforesaid, remain in the hands of other parties not cancelled by the county.

By the act referred to the city can be held liable for the same. What right have the county commissioners thus to charge back the entire tax, or even receive the money collected, except such amount as the county holds the certificates therefor in accordance with the provisions of the act.

I am therefore unable to assent to any other mode of settlement than the proposition made by the council.

Correspondence of the Gazette.

From the Army of the Cumberland.

SIGNAL STATION, FORT WHITE, TENN., Four miles from Chattanooga, Nov. 4, 1863.

Editors Gazette:—The rains, which for the month past have nearly frozen ourselves, buried us in mud more than knee deep, chilled to death thousands of our animals, rendered our roads almost impassable, kept us on less than one-fourth rations until we began to resemble lanterns, and swelled the Tennessee until we could not keep up a bridge twelve hours, have at last consented to "dry up," and old Sol, who was a stranger to us poor "hiredlings," again smiles on us as benignly as in the balmy days of spring, when we were staying at Murfreesboro and rolling in Uncle Samuel's rations. The "natives" and sophisticated residents in this land of contention tell us they never knew of such a time. Well, I hope they never may know such a time again until every rebel and copperhead is at rest with the old parent of all such reptiles. Were I to say the weather was rainy, more rainy and most rainy, and the going was mud, muddy, muddiest, the expression would not correctly represent the case, so I will not attempt to tell you anything about those things.

We are at present rusticated in the above-named earthwork, which is on a point of land about two miles in a straight line, or four by the road, from Chattanooga, and near the foot of Lookout Mountain. From here we can see the principal part of the rebel lines, have a good view of their famous battery on the crest of Lookout Mountain, from which they pitch shot and shell far into Chattanooga, and also from here we occasionally, and often semi-occasionally, let a token of our tender regard fall among the rebel hordes who roll in mud and dust along our entire front.

What can I tell you about the situation here which you do not already know? I need not rehearse to you the thousand and one rumors and reports which are borne around the camp fire for the amusement of the lonely sentry, or spring from the fertile brain of some army hanger-on.

Since Gen. Hooker moved up the other side of the river and the boats began to run as far as Kelly's Ferry, the supply of rations has increased from one-fourth to one-half of meat, bread and coffee. There was a time when the going was so very hard, and we were compelled to draw our supplies with teams from Stevenson, that the army had but one meal a day. But now there is a constant line of teams from the landing at Kelly's Ferry to the storehouses in Chattanooga. Gen. Grant is determined to get some supplies on hand before he issues full rations, and while we are on as light duty as we are now, we can and do cheerfully put up with half-rations.

The men of this army were struck dumb with astonishment when they first learned of Gen. Rosecrans' removal. It was some time before they would believe the report, and they did not generally credit it until they saw him depart. They did not then and do not now know why he was removed.

There are a great number of rumors, all of which have their usual share of supporters, but can be traced to no authentic source. At first many of the men were quite loth to give up and let the general be removed, but when they learned that General Grant was coming here they very readily acquiesced, and felt well again.

I suppose that you, like all other good people in the land of light and loyalty, are anxious to know what we are going to do here this winter. Well to tell you the truth, I must say I do not know, and can hardly guess. There are all sorts of improbable rumors of what we will do, but I place no reliance on the truth of any of them. The plain fact of the matter is this. All of our animals are so depleted, and literally starved, that we cannot move either ahead or back until they are refitted for the service, and that cannot be done in one week. I tell you, my dear sir, if we hold our own position here, until reinforcements and supplies reach us so we can move, we must hold up the heaviest part of the rebel army, and that will be the work of no mere holiday soldiers. I do candidly believe though, had we shelling range the camps in Chattanooga valley, on the east side of Lookout Mountain, information occasionally favors the belief that there were indications, that an attack would be made on Hooker's position by a large force of the rebels are long, but the strength and advantageous position, which with other co-operation of other forces has led to abandoning the scheme. It is said the Western & Alabama road, is worked to its full capacity bringing reinforcements to Bragg, and the road from Chickamauga station, 8 miles south, is lined with camps of rebels. Our campaign will not be closed without a decisive and bloody struggle for Chattanooga and East Tennessee. Intelligence from East Tennessee of the 14th, is satisfactory.

from Stevenson here. But what could they do towards supplying our wants when a team could haul hardly enough feed to last it from there here. Still less could they do towards supplying us with rations. Train load after train load was lost by becoming wet while on the way, and the bread, sugar and coffee, would all spoil. I have seen hundreds of boxes of bread in one lot which were one perfect mass of mouldy, wet trash.

In the line of clothing it was impossible to do anything, and many of the men suffered very much for clothes of all kinds. Many of them had neither knapsack, blanket, overcoat or any article of clothing but what they had on their backs. It were impossible for many of them to keep anything near comfortable during these cold rainy nights but by the aid of huge fires. Even these would burn you on one side, while you would nearly freeze on the other. The once beautiful grove which surrounded this town, will show how fast the campfire uses up wood. This place will remember this cold fall a long time. But enough of this.

Last Night's Report.

NEW YORK, Nov. 16.

From the Herald's correspondence, written at the headquarters of General Banks, the following details of the Texas expedition are compiled:

On the morning of the 30th a heavy norther was experienced, raging twelve hours, during which the steamer Union and two schooners went down. The steamer Zephyr had her machinery broken, and was taken in tow by the gunboat Oswego. The whole fleet with the exception of the Union and the two schooners, arrived at rendezvous on the 3d.

News of Banks' success in Texas is likely to give rise to fears of complications with the French in Mexico. There is no ground, however, for such fears. Banks has special instructions to avoid all possible difficulties with the French, and none are apprehended.

The United States consul at Monterey apprises this government of the landing of a large cargo of Enfield rifles at Brownsville, a short time before the arrival of our forces.

The landing was first made on Brown Island. On the 2d the Fifteenth Maine, Col. Dwyer, started for Boca Chico, took possession of the pass, and encamped on the 3d. After a reconnaissance of the mouth of the Rio Grande a landing was effected on the Texas shore. A high surf was running, and four boats were capsized. One of the boats, after returning from landing her men, succeeded in picking up a large number of those in the water, and the Mexican shore being much nearer than the other they started for it, but the Mexicans would not allow them to land and the boat was compelled to cross the river to the Texas side. During the whole time not one armed rebel was seen.

The same blockade runner in Mexican waters on the Rio Grande. On the appearance of the fleet off the Texas shore a series of fires were seen lighted all along the coast by the rebels. On the 23d a boat was picked up containing two deserters from the Texas cavalry, who stated that three rebel regiments had been lately sent from Rio Grande to Galveston and Sabine Pass, and a regiment of cavalry had been sent to Houston where Magruder is said to be.

Most of the rebel army is said to be scattered at different points. It was reported that Gen. Slaughter is said to be commander of Fort Brown superceding Gen. Bea.

A small rebel gunboat is said to be in Salina Bay, and on Matagorda Island near Salina, is a large fort mounting nine guns.

A schooner laden with cotton was seized in Texan waters on the 2d.

SAN FRANCISCO, Nov. 12.

Nine whalers belonging to eastern ports have arrived this season, having generally done well.

The first rain of the season fell last night. The regular and opposition steamers depart for Panama to-morrow, creating a lively competition for passage rates. The average is about one hundred and seventy-five dollars for the best state-rooms; one hundred and forty for the ordinary; ninety in the second cabin; fifty in the steerage.

MORNING DISPATCHES.

WASHINGTON, Nov. 16.

Tribune's special.—The government has received information through our consul at Monterey that a few days before the capture of Brownsville by Gen. Banks a large cargo of Enfield rifles, enough to arm all the militia in the state, were landed there.

When the United States steamer Newbern was on her way to New York with a large number of prisoners, a plot was discovered to take the vessel from the officers and men. There were less than 50 of them. The 150 prisoners could easily have effected their design had it not been for the ingenuity of a naval officer, who, disguised as a sailor, discovered the plot in time.

WASHINGTON, Nov. 16.

Times' special.—Rumors reach here to-night of a cavalry fight to-day on the Rapidan. Firing was heard yesterday in the direction of Stevenson, and again to-day in the same direction. The rebels captured a wagon train yesterday, near Stevensonburg. The cause of the firing to-day is not known up to this hour—11 p. m.

CHATTANOOGA, Nov. 16.

All quiet in front. Lookout battery has been quite vigorously worked to-day, always on Hooker's camps. Moccasin point, and Chattanooga camps. Shell is occasionally thrown into town, but the plunging fire is neither accurate nor effective. No casualties reported here. Our batteries have shelling range the camps in Chattanooga valley, on the east side of Lookout Mountain. Thanksgiving.

There has been a universal agreement among all the business men of the city to close their places of business Thanksgiving day. The day will be one of unusual interest, having the recommendation of President Lincoln and Gov. Salomon, and will consequently be observed both as a national and state acknowledgement of the many favors bestowed by a Protecting Providence. We understand that the religious services will be held at the Baptist church, where the Rev. Mr. Thompson, of the Presbyterian church, will preach the sermon.

Our exchanges which circulate in Rock county are requested to notice this arrangement.

**LAWRENCE RELIEF FUND.**—Received of Mrs. W. S. Follensbee, \$22.45 and a bed quilt, collected by her in the town of Janesville for the Lawrence sufferers.

**REMOVAL.**—Mr. D. Warren, agent for the sale of Singer's Sewing Machine, has removed his office to West Milwaukee street, two doors east of the Ford House, where the public will find at all times a good supply of machines.

**SELECT SCHOOL AT EMERALD GROVE.**—The people of Emerald Grove and vicinity are now favored in having an excellent select school. This is under the charge of Miss L. L. Maigs, a teacher of experience and success. The next term will commence on Monday, December 17th, and continue 11 weeks. Tuition will be \$4 for common studies, and 50 cents additional for each higher study.

Milton Academy.

The winter term of this institution opens Tuesday, Nov. 20th, and continues seventeen weeks. Board in private families for \$2 per week, and in clubs \$1.50. Tuition from \$6 to \$8, per term.

For further information address the Principal. W. C. WHITFORD. Milton, Nov. 17, 1883.

**SEVERE ACCIDENT.**—Morris Smith, a son of A. Hyatt Smith, met with a severe accident at the big mill Monday morning, which, but for his presence of mind, might have been a fatal one. After oiling a part of the machinery, the ladder on which he was standing, slipped from its place and threw his hand into a beveled wheel.

With remarkable coolness, he turned his hand across the wheel breaking off the middle finger in doing so, but saving his arms, and perhaps body from being drawn in. He escaped with a loss of the two fingers.

THE SINGER SEWING MACHINES.

OUR LETTER A FAMILY SEWING MACHINE is fast gaining a world-wide reputation. It is by no means the best and cheapest and most beautiful of all Family Sewing Machines yet offered to the public. No other Family Sewing Machine has so many useful appliances for hemming, binding, felling, tucking, gathering, gauging, braiding, embroidering, cording, and so forth. No other Family Sewing Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make our Family Sewing Machine most reliable, and most durable, and most certain in action, all rates of speed. It makes the interlocked stitch, which is the best stitch known. Any one, even of the most ordinary capacity, can sew, at a glance, how to use the letter A Family Sewing Machine. Our Family Sewing Machines are finished in classic and exquisite style. The Folding Case of the Family Machine is a piece of cunning workmanship of the most useful kind. It protects the machine when not in use, and when about to be operated may be opened as a spacious and substantial table to sustain the work. While some of the Cases, made out of the choicest woods, are finished in the simplest and choicest manner possible, others are adorned and embellished in the most costly and superb manner.

It is absolutely necessary to see the Family Machine in operation, so as to judge of its great capacity and beauty.

It is fast becoming as popular for family sewing as our Manufacturing machines are for manufacturing purposes.

The Branch Offices are well supplied with silk, twist, thread, needles, oil, &c., of the very best quality. Send for a PAMPHLET.

Stewart's Cooking Stove is the most perfect working Coal Cook Stove in the world. I can supply all complete with Coal fixtures warranted in every case to work to the entire satisfaction of the user. It is worth while purchasing.

A stove that will last you 25 years.

In that time it will save you \$750 to \$1,000 in fuel, besides much labor.

Economise Fuel!

P. P. STEWART'S PARLOR COAL STOVE.

THE HANDSOMEST, NEATEST, CLEANEST, easiest managed, and altogether the most agreeable Parlor Stove in use. Consumes less fuel by about one-half than any other stove giving same amount of heat.

Two tons of Coal will run the Stewart for the season, heating 1 to 3 rooms.

At pleasure, day and night. P. P. Stewart's Stove consumes all the smoke or gas arising from the coal, thus increasing the heat, making the two fold over other stoves where the fire is allowed to smolder, maintain the smoke or gas escaping into a smelter, wasting far the most valuable portion of the fuel.

DALETON, Lake St., Chicago, sold 600 of them up to the 1st Nov., this season—many of them are in this city giving the most perfect satisfaction.

E. S. BARKUS, Janesville.

The stove not sold out during the season.
